Dear Friends and Colleagues

It is a great honour for me to personally invite you again to the 8th International Breast Symposium Düsseldorf (IBSD) at the InterContinental Hotel situated at the Königsallee. Again, we have been able to recruit national and international experts with a great experience in all areas of aesthetic as well as reconstructive breast surgery.

We will also have, for the second time, simultaneous translation to russian language. The 8th International Breast Symposium will be linked to the first Breast & Body Live Surgery Day, which will show the state of the art breast surgery in aesthetic and reconstructive surgery. The operations will be performed with outstanding, well-known Plastic Surgeons and Gynecologists.

Further, the aim of our 8th Symposium is to have lively scientific controversial discussions together with the participants and the faculty. Again, we will focus on pro- and contra sessions to take the great opportunity to strengthen the multidisciplinary approach between the colleagues to create a platform for an open discussion from different perspectives.

The following topics are focused to surgical indications and selection of appropriate techniques for breast surgery:

- Reconstructive breast surgery
- Aesthetic breast surgery
- ALCL & the next round?
- Social media critically reviewed
- International Breast Surgery Alliance (IBSA) Session
- Prophylactic breast surgery
- Session mastectomy & reconstruction
- Reconstruction – trends & perspectives
- IBSD championship 2020
- Best case - best save session

Without the time and support from the outstanding faculty and the audience, we would not have been able to accomplish this fantastic program.

I am looking forward to welcome you in Düsseldorf.

Kind Regards
Prof. Dr. med. Christoph Andree

We kindly invite you to submit a case description for the session „best case, best save in breast surgery“.

In our awarded session „Best case, best save in breast surgery“ five pre-selected cases will be presented by delegates. Further, from the scientific board selected abstracts will be accepted and presented as a poster in the exhibition area.

We welcome submissions of abstracts for presentations in reconstructive and aesthetic breast surgery and in lymph surgery.

At the end of the session will be a live voting by the audience to select the best presentation. The best presentation will be awarded. Each presentation will last six minutes – 4 minutes for the presentation and 2 minutes for questions. The description of the case must be written in English and should be a maximum of 300 words. Please use our online abstract submission tool under www.Breast-Symposium.com.

The deadline for submission is March 1, 2020 authors will be notified in case of acceptance until March 8, 2020.
