## WELCOME

### Dear Friends and Colleagues

It is a great honour for me to personally invite you again to the 12th International Breast Symposium Düsseldorf (IBSD) at the Hotel Kö59 (former InterContinental Hotel) situated at the Königsallee. Again, we have been able to recruit national and international experts with a great experience in all areas of aesthetic as well as reconstructive breast surgery.

After the great response in the last few years, we will again show exciting live surgeries from the Sana Klinik Düsseldorf to the congress hotel on the first day of the congress. This year there will be 6 surgeries from three operation rooms. The surgeries will be performed with outstanding, well-known international Surgeons.

Further, the aim of our 12th Symposium is to have lively scientific controversial discussions together with the participants and the faculty. Again, we will focus on pro- and contra-sessions to take the great opportunity to strengthen the multidisciplinary approach between the colleagues to create a platform for an open discussion from different perspectives.

The program is focused to surgical indications and selection of appropriate techniques for breast surgery:

- **Reconstructive breast surgery**
- **Aesthetic breast surgery**
- **Breast revision surgery**
- **Breast oncology & radiation therapy**
- **Round tables in BIA-ALCL & BII**

Without the time and support from the outstanding faculty and the audience, we would not have been able to accomplish this fantastic program.

I am looking forward to welcome you in Düsseldorf.

Kind Regards  
Prof. Dr. med. Christoph Andree

# Microthane®

A SOLUTION FOR  
YOUR DAILY PRACTICE

get started on your  
Microthane® journey.

## B-LITE®

B-Lite® lightweight implants covered with Microthane® are designed to be **stable** and **predictable**. They weigh up to 30% less than traditional silicone implants while maintaining an equivalent size, form, and function. Lightweight implants cause less stress to the breast tissue and **support tissue stability**.<sup>1</sup>

**Great adherence** and **less stress** are two factors that allow you to have **better control** over implant stability and implant long-term surgical outcome. Regular users around the world confirm that they and their patients are post-operatively **satisfied** and **confident**.

**Mème® RR**  
Round base,  
central projection

**Replicon® AR**  
Round base,  
anatomical projection

**Opticon® AS**  
Short base,

## PROGRAM FRIDAY, 12 APRIL

8.15 – 8.30

### INTRODUCTION

*Christoph Andree, Düsseldorf*

*Dirk Schaefer, Basel – President Swiss Plastic Surgery*

*Marcus Lehnhardt, Bochum – President DGPRAC*

*Jin Sup Eom, Seoul – President Korean Society of Aesthetic Plastic Surgery*

8.30 - 14.30

### LIVE SURGERY DAY 1

*Moderation: Christoph Andree | Alberto Rancati | Kristin Becker*

#### 6 Live surgeries from 3 operation rooms

#### THEATER 1

Reduction mammoplasty with scaffold

*Moustapha Hamdi*

Primary breast augmentation I

*Fábio Busnardo*

#### THEATER 2

Revision I: Implant exchange & mastopexy with mesh

*Yves Harder / Jörn Lohmeyer*

Breast reconstruction with Flora expander

*Stefano Pompei*

ABBA, Atraumatic Blunt Breastpreserving Augmentation

*Charles Randquist*

#### THEATER 3

Breast reconstruction: SSM with DTI

*Roy de Vita, Björn Lisboa*

POLYTECH

Revision II: Implant exchange

*Matthias Reichenberger*

POLYTECH

11.30 - 12.30

### LUNCH BREAK IN EXHIBITION AREA

*Live surgeries are supported by:*

POLYTECH

BREAST  
BODY

## PROGRAM FRIDAY, 12 APRIL

14.30 - 15.00

### IBSD MEETS SEOUL BREAST MEETING

*Chair: Christoph Andree | Jaume Masia*

#### Different techniques in breast augmentation – what can we learn from Asian plastic surgeon?

Korean perspective on breast augmentation

*Jin Sup Eom*

What Korean patients care about

*Jae Jin Ock*

Correction of constricted lower pole breast in Korean women

*Youngdae Lee*

15.00 - 15.30

### COFFEE BREAK IN EXHIBITION AREA

15.30 - 16.15

### BREAST SURGERY I

*Chair: Christoph Andree | Jaume Masia*

#### The truth about breast surgery - I hope you can take it!?

*Phillip Blondeel, Claudio Angrigiani*

16.15 - 17.20

### AESTHETIC BREAST SURGERY I

*Chair: Dirk Schaefer | Jutta Liebau*

Capsulectomy vs. Capsulotomy vs. Neo-Pocket

*Radu Ionescu*

Symmastia repair

*Fábio Busnardo*

Soft tissue support for revision

*Patrick Mallucci*

Prevent waterfall deformity in Augmentation-Mastopexy

*Yoav Barnea*

Prevent double bubble deformity

*Sonia Fertsch*

Correction of tuberous breast deformity

*Sukru Yazar*

Nipple sensation: does it depend on the incision

*Alberto Rancati*

Discussion

## PROGRAM FRIDAY, 12 APRIL

17.20 - 18.00

### BREAST RECONSTRUCTION I

Chair: Phillip Blondeel | Abdallah Abdallah

**My personal approach in skin reducing mastectomy and immediate reconstruction – DTI**

Roy de Vita

Fábio Busnardo

TMG-flap vs. PAP-flap

Jian Farhadi

Optimizing donor site in DIEP-flap

Jaume Masia

Session supported by Silimed

18.00 - 18.30

### BREAST PANEL I

Chair: Alberto Rancati

**Long term evidence in breast implants for patient safety: Mandatory or just a sales tool**

Fábio Busnardo, Julio Piug

18.30 - 19.00

GET TOGETHER IN EXHIBITION AREA

20.30

CONGRESS PARTY IN „THE VIEW - SKY LOUNGE“

## CONGRESS PARTY FRIDAY, 12 APRIL - 8.30 P.M.

### CONGRESS PARTY @ THE VIEW SKYLOUNGE & BAR

Friday, April 12, 2024 | 8:30 pm

The skylounge and bar THE VIEW is located on the 16th floor of the Ininside Hotel. Once you reach the top, the whole city lies at your feet. The bar is illuminated in violet light and creates the perfect Friday night feeling. The lights of Düsseldorf's Medienhafen glitter and our guests are in a good mood after a short time with our internationally renowned DJ Tom Novy. The perfect location for our legendary congress party for IBSD 2024!

Our Party-DJ Tom Novy, a guarantee for wild parties, was the first German DJ to mix an annual compilation for the London Ministry of Sound in 2000. He produced remixes for the Backstreet Boys, Madonna, Jimmy Somerville, Justin Timberlake and SNAP!. His tracks I House You, Superstar and Your Body were in the TOP 10 of the international dance charts for weeks.

Entrance fee is 120,00 Euro and includes party buffet and free drinks (wine, beer, soft drinks) from 8.30 pm to 1.00 am. The Skylounge is rented exclusively for us until 12pm.

**Tickets can be purchased online or on site at the congress registration desk!**

Please note – admission by ticket only!

Party supported by: 

## PROGRAM SATURDAY, 13 APRIL

Session supported by BD

8.15 - 8.45

### THE EARLY BIRD SESSION

Chair: Chris Andree | Stefano Pompei | Roy de Vita

#### The Value of the Internal Bra for Patients

Heavy breast vs. light breast vs. post-bariatric patient

The use with implant vs. use without implant

Moustapha Hamdi, Patrick Mallucci, Sonia Fertsch

8.45 - 9.40

### BREAST SURGERY II

Chair: Alexander Bach | Jaroslav Krupa

#### Seroma and how to handle?

Etiology of Seroma

Yazan Masannat

#### How to handle in ...

... aesthetic surgery

Dennis Hammond

... reconstructive surgery

Peter Cordeiro

#### How to prevent rippling in a slim patient in ...

... implant reconstruction

Yves Harder

... augmentation

Charles Randquist

#### DISCUSSION

9.40 - 10.00

### KEY NOTE LECTURE

Chair: Chris Andree

#### From breast surgery to horse breeding

Axel Feller

## PROGRAM SATURDAY, 13 APRIL

10.00 - 11.00

### BREAST IMPLANT ILLNESS - BII

Chair: Günter Germann

„En-bloc“ – a question of interpretation?

Jaroslav Krupa

Personal Experience with patient groups

Bianca Baican

BII – the scientist's view

Roger Wixtrom

#### DISCUSSION WITH PATIENT GROUP

Jaroslav Krupa, Bianca Baican, Roger Wixström, Representative of a patient group

Moderated by Günter Germann

11.00 – 11.30

### COFFEE BREAK IN EXHIBITION AREA

11.30 - 12.30

### AESTHETIC BREAST SURGERY II

Chair: Katrin Seidenstücker | Andreas Wolter

Session supported by Mentor

#### THE IMPLANT CHOICE - 3 SURGEONS AND A SCIENTIST

Moderated by Yoav Barnea

Introduction

Roger Wixtrom

Discussion - right patient, correct implant, appropriate surface

Yoav Barnea, Burcu Celet Ozden, Radu Ionescu, Roger Wixtrom

#### THE HOT SEAT SESSION I

Moderated by Jaume Masia

Managing the upper pole in Mastopexy

Jian Farhadi, Alberto Rancati, Stephen McCulley, Stefano Pompei

12.30 - 13.15

### BREAST RECONSTRUCTION II

Chair: Dennis Hammond | Jürgen Terhaag

#### Subtotal mastectomy with reconstruction and individualized RXT

Introduction of a new therapy concept

Zoltan Matrai

#### Pro/Contra Discussion

Breast Surgeons vs. Radiologists vs. Plastic Surgeons

Zoltan Matrai, Walter Weber, Philip Poortmans, Alberto Rancati, Stephen McCulley

#### DISCUSSION

Moderated by Dennis Hammond | Jürgen Terhaag

## PROGRAM SATURDAY, 13 APRIL

13.15 - 14.00 LUNCH BREAK IN EXHIBITION AREA

14.00 - 14.30

### BREAST PANEL II

*Chair: Jaume Masia*

**Convergence of cutting-edge technologies and techniques in aesthetic and reconstructive Breast Surgery**

The Influence of Surface

*Dennis Hammond*

RFID Expanders Friendly to Imaging Techniques

*Yves Harder*

Principles of Future Breast Tissue Surgery

*Charles Randquist*

**DISCUSSION**

*Session supported by Motiva*

14.30 - 15.00

### BIA - ALCL – WHAT'S NEW?

*Chair: Claudio Angrigiani | Stefano Pompei*

Treatment & surgical techniques

*Dennis Hammond*

**Why is the incidence so different in single centers?**

**ROUND TABLE**

*Roger Wixtrom, Peter Cordeiro, Roy de Vita, Alberto Rancati*

15.00 - 15.30

### BREAST PANEL III

*Chair: Jaume Masia*

**Revolutionary Trends in Breast Reconstruction  
Meaningful Innovation & Patient Centric Approach**

The third option in Breast Reconstruction:

All natural & minimally invasive, patient friendly,  
less complications - supported by science!

*Andrzej Piatkowski*

Pre-pec - a natural evolution in Breast Reconstruction:

The 4P-Brand Method, experience with more than 1000 patients

*Roy de Vita*

*Session supported by Polytech*

15.30 – 16.00

COFFEE BREAK IN EXHIBITION AREA

## PROGRAM SATURDAY, 13 APRIL

16.00 - 16.40

### BREAST SURGERY III

*Chair: Mazen Hagouan | Björn Lisboa*

**New tools / innovations in breast surgery**

Mapping perforator

*Arash Momeni*

Lymph....

*Katrin Seidenstücker*

Robotic assisted breast surgery

*Jin Sup Eom*

Lipofilling – is it really the tool we should use?

*Raymund Horch*

16.40 - 16.55

### KEY NOTE LECTURE

*Chair: Mazen Hagouan | Björn Lisboa*

**Artificial intelligence in plastic surgery**

*Heike Klepetko*

16.55 - 17.30

### AESTHETIC BREAST SURGERY III

*Chair: Christoph Andree | Raymund Horch*

**Challenging Session**

**Personal tips & tricks in augmentation-mastopexy**

*Dennis Hammond*

*Patrick Mallucci*

*Charles Randquist*

*Radu Ionescu*

17.30

**CLOSING**

*Christoph Andree*

# POLYTECH

With a global footprint in over 80 countries, POLYTECH Health & Aesthetics is an international leader in Breast Aesthetics, specialising in the development and production of innovative silicone breast implants and other body contouring implants and technologies.

POLYTECH is renowned for its commitment to innovation, as exemplified by the ground-breaking B-Lite® lightweight breast implants and a diverse portfolio that caters to personalised concepts of beauty. With an emphasis on high quality and safety, POLYTECH products are designed and manufactured in Germany and reflect dedication to excellence in every aspect.

QUALITY YOU CAN FEEL

Establishment Labs Holdings Inc. is a global medical technology company dedicated to improving women's health and wellness through the power of science, engineering, and technology. The Company offers a portfolio of Femtech solutions for breast health, breast aesthetics and breast reconstruction. The over three million Motiva® devices Establishment Labs has delivered to plastic and reconstructive surgeons since 2010 have created a new standard for safety and patient satisfaction in the over 85 countries in which they are available. The Motiva Flora® tissue expander is used to improve outcomes in breast reconstruction following breast cancer and it is the only regulatory-approved expander in the world with an integrated port using radio-frequency technology that is MR conditional. Mia Femtech™, Establishment Lab's unique minimally invasive experience for breast harmony, is the Company's most recent breakthrough innovation. These solutions are supported by over 200 patent applications in 25 separate patent families worldwide and over 50 scientific studies and publications in peer reviewed journals. In 2018, the Company received an investigational device exemption (IDE) from the FDA for Motiva Implants® and began a clinical trial to support regulatory approval in the United States.

The QUALITY you Expect – The OPTIONS you Need – The PEACE OF MIND you Demand  
GC Aesthetics® is an established global medical device company focused on Aesthetic, Revision and Reconstruction procedures. With more than 40 years of experience, surgeons and patients in more than 70 countries with systems in place to ensure the safety of our products through pre-clinical testing, clinical studies and excellent global post-market surveillance use GCA®.

GCA® is A Confident Choice for Life™ supported by a 10-year prospective and multi-centric clinical study and an average of 17 years of extended long-term high patient satisfaction data. We provide the most comprehensive implant portfolio in the industry with breast, face, body implants and skin expanders to give surgeons quality surgical options.

Much more than a European manufacturer of high-quality implants, we are proud to support our surgeons and patients by integrating and developing solutions that are designed to support the best outcome for women's breast enhancement journey.

A Confident Choice for Life™

Mentor Worldwide LLC, part of Johnson & Johnson MedTech, is a leading supplier of breast implants in the global aesthetic market. The company develops, manufactures, and markets innovative, science-based products for surgical and non-surgical medical procedures that allow breast surgery patients to improve their quality of life. The company is focused on two strategic areas: breast reconstruction and breast augmentation.

For more information, visit [www.mentorwwllc.com](http://www.mentorwwllc.com).

## SPONSORS / EXHIBITORS

**Advanced Biomedical Concept** is a privately owned, young and dynamic company that distributes medical devices and equipment. At our company, we strive to create value by shaping the opportunities offered by technological innovations.

Our passion and commitment help us transform trailblazing ideas into global successes. Harnessing the power of multitasking expertise and deep knowledge, we stand at the forefront of innovation.

Our devices are more than tools; they are catalysts, designed to ease surgeons' work, enhancing precision and efficiency.

Dive into a world where knowledge and understanding come together to create a new standard for surgical excellence.

Innovation meets compassion. Our state-of-the-art products are designed to enhance the precision of surgeries, improving outcomes for patients, and bringing peace of mind to their families.

By helping surgeons perform their best, we're committed to turning medical challenges into success stories.

Driven by our dedication to client success pushing beyond the expected to achieve the extraordinary, finding effective solutions for our clients is our greatest reward which has no price.

GalaFLEX™ Scaffold Internal Bra™ by BD

Committed to developing innovative solutions with P4HB (poly-4-hydroxybutyrate) and delivering predictable strength and stability to surgeons and patients alike. The GalaFLEX™ Scaffold Collection supports, repairs and reinforces soft tissue in breast surgery procedures.

Advantages include:

- Strong
- Bioabsorbable
- Biologically Derived
- Monofilament
- Predictable performance

Visit [Galateasurgicalinternational.com](http://Galateasurgicalinternational.com) today for important safety information and to learn more about how GalaFLEX™ Scaffold can support you and your breast surgery patients.

## SPONSORS / EXHIBITORS

Canfield Scientific is the global leader in developing imaging systems for the medical and skin care industries. Used in hospitals, medical & aesthetic practices and skin care centers, Canfield's advanced photographic imaging solutions are an integral part of consultations, built around a common patient image chart. From AI-driven iPad applications, to full-body 3D photography, thousands of surgical and non-surgical consultations begin with images captured by Canfield's powerful imaging tools that improve communications, align doctor-patient expectations and facilitate treatment planning.

[www.canfieldsci.com](http://www.canfieldsci.com)

ERBE ELEKTROMEDIZIN GMBH - Setting standards since 1851.

As a family-owned and operated business, Erbe develops, manufactures and markets surgical systems for professional use in various medical disciplines all over the world.

**Applications in breast surgery using medical technology made by Erbe**

For the reconstructive and aesthetic breast surgery, our portfolio offers units, submodules and instruments that have been optimized for a dedicated range of surgical interventions.

The "master module" VIO® 3 offers numerous electrosurgical modes. The preciseSECT mode of the VIO® 3 is perfectly suited for the dissection of fine tissue structures. preciseSECT offers fast and effective coagulation with limited tissue-separating properties, in combination with low smoke development and carbonization.

The IES 3 smoke evacuation system protects the surgical team and the patient against health risks resulting from surgical smoke. The system is quiet and versatile. It is an integral part of the VIO® 3 workstation or can be used as a stand-alone unit.

In combination with electrosurgical pencils with integrated smoke evacuation the IES 3 is the ideal solution for clean air in the operating theatre.

Learn more at: [vio.erbe-med.com](http://vio.erbe-med.com), [smoke.erbe-med.com](http://smoke.erbe-med.com)

## SPONSORS / EXHIBITORS

Human Med is the world's leading manufacturer of medical devices for water-jet assisted liposuction (WAL) that has become a benchmark in the field of natural and gentle body contouring. The company has played a pioneering role in the field of aesthetics, reconstructive and regenerative medicine for more than 20 years by offering complete systems and accessories for all indications of autologous fat management with proven outstanding results in autologous fat transfer, in the treatment of soft tissue defects, of lipedema, scars and chronic wounds. Human Med's product portfolio is marketed in many countries by a solid network of regional distributors.

For more information go to [www.humanmed.com](http://www.humanmed.com)

Play it safe for you and your patients: A good gut feeling right from the start!

Complications can occur with any surgical procedure - even with your cosmetic surgery. With aesthetic treatments such as breast augmentation, abdominal and facelifts, post-operative bleeding, infections or wound healing problems cannot be ruled out.

Health insurance companies may refuse to pay benefits in whole or in part if there is a charge for subsequent treatment. So protect your patients in good time with the follow-up cost insurance from medassure beauty.

Benefits for you and your patients:

- + No financial worries in case of necessary revision treatment.
- + Up to 5 years of coverage including implant protection
- + Internal benefit processing directly at medassure beauty
- + Simple and fast claims settlement, no GOÄ necessary

For questions and further information, we would be pleased if you would visit us at our booth.

## SPONSORS / EXHIBITORS

As a global leader in medical technology, services and solutions, Medtronic improves the health and lives of millions of people each year. We believe our deep clinical, therapeutic and economic expertise can help address the complex challenges — such as rising costs, aging populations and the burden of chronic disease — faced by families and healthcare systems today. But no one can do it alone. That's why we're committed to partnering in new ways and developing powerful solutions that deliver better patient outcomes.

Founded in 1949 as a medical repair company, we're now among the world's largest medical technology, services and solutions companies, employing more than 85,000 people worldwide, serving physicians, hospitals and patients in more than 155 countries. Join us in our commitment to take healthcare Further, Together.

Learn more at [Medtronic.com](http://Medtronic.com).

MÖLLER's Aesthetics Solutions equip practices with the latest technology to carefully and easily handle fat while performing body contouring procedures.

The main goal behind our solutions is to enable aesthetic surgeons and their teams to create an optimal practice workflow and help them to achieve the best possible results with highly viable fat cells during fat transfer. Therefore, all products are perfectly coordinated to provide you with state-of-the-art technology and safety.

Reimagine your high-volume lipotransfer operations with our state-of-the-art Workstation Pro plus. This compact powerhouse is your go-to for efficient liposuction and re-infiltration. Equipped with an unrivalled volume management solution, our Workstation Pro plus integrates seamlessly into your workflow, streamlining processes and saving valuable time. Now is the time to get a new centerpiece for your surgical suite.

Say goodbye to surgical fatigue with our Vibrasat® Pro - the power-assisted liposuction handpiece that redefines comfort. Meticulously crafted with one of the most tissue-friendly technologies, it offers an unparalleled surgical experience.

With the Vibrasat® Pro in your hand, you're not just performing a procedure, you're crafting a masterpiece with ease and precision. Harness the power of comfort and technology today for superior patient outcomes.

Your patients will love the result.

## SPONSORS / EXHIBITORS

NordiCare is an industry-leading Swedish company in medical technology products. We are dedicated to making products which facilitate everyday life for end users and medical professionals. We focus on carefully selected materials, as well as best possible functionality and usability. We also strive towards cost efficiency and availability. Many of our products have been a part of our range since the start of NordiCare, while some are very recent. This is significant for us, as we always work to combine the competence and knowledge from years of experience, with the possibilities of new materials and techniques of the future.

Our driving force is to develop functional products in attractive design that make everyday life easier for both users and the medical profession. To be able to offer the best solutions and the highest quality, we cooperate with selected internationally leading manufacturers. Customers should always feel secure in the selection of NordiCare's products both in terms of its quality, function and environmental impact. We call it Carefully Selected.

Welcome to our booth or visit [www.nordicare.de](http://www.nordicare.de) for more information.

pfm medical is an internationally operating, medium-sized family company based in Germany, offering solutions in the field of healthcare.

For more than 50 years we have successfully, developed, manufactured, and distributed quality products, while simultaneously offering reliable service.

From our headquarters in Cologne, we direct the activities of our locations both within Germany and abroad. Our thoughts and actions are focused on therapeutic success to improve the patient's quality of life, as well as offering the best possible working conditions for users in hospitals, practices, care facilities and laboratories.

Our products, services, and treatment portfolio cover our medical focus fields of infusions, surgery, histotechnology and cardiovascular technologies. We consistently develop our solutions in collaboration with leading medical practitioners and partners.

In this way we can offer flexible and individual solutions for the relevant context.

## SPONSORS / EXHIBITORS

Silimed, present in the market since 1978, is one of the largest silicone implant manufacturers in the world. For more than 40 years, has contributed to plastic, aesthetic and reconstructive surgery promoting research, scientific studies and development of the best technologies, always in collaboration with plastic surgeons.

One of the objectives of technological breakthroughs in Silimed is to create implants that offer results that are increasingly better adapted to the needs of patients. For this purpose, Silimed BioDesign line was born, with five different forms of implants depending on the diverse biotype of the woman and four available textures (smooth, textured, polyurethane and nanotextured) to meet every requirement individually.

For further information, visit our booth or find us in [www.silimed.com](http://www.silimed.com)

Since 1966 S&T is developing and manufacturing outstanding microsurgical instruments and sutures for microsurgeons around the globe.

To manufacture our products we take worldwide variably surgical techniques as well as all special requirements of the end-user into consideration. Together with them we constantly improve and further develop our range.

Technical capability in combination with innovation, reliability and a sophisticated measurement and monitoring system are the cornerstones of our integrated approach focused on quality. Today, S&T is directly represented in most major microsurgical markets with state-of-the-art product lines ranging from forceps, to needle holders, scissors, vessel clamps, sutures as well as special instrumentation.

S&T Instruments are the preferred choice for microsurgeons in the area of plastic- reconstructive and handsurgery.
