WELCOME

Dear Friends and Colleagues

It is a great honour for me to personally invite you again to the 11th International Breast Symposium Düsseldorf (IBSD) at the Hotel Kö59 (former InterContinental Hotel) situated at the Königsallee. Again, we have been able to recruit national and international experts with a great experience in all areas of aesthetic as well as reconstructive breast surgery.

After the great response in the last few years, we will again show exciting live surgeries from the Sana Klinik Düsseldorf to the congress hotel on the first day of the congress. This year there will be 7 surgeries from three operation rooms. The surgeries will be performed with outstanding, well-known international Surgeons.

Further, the aim of our 11th Symposium is to have lively scientific controversial discussions together with the participants and the faculty. Again, we will focus on pro- and contra sessions to take the great opportunity to strengthen the multidisciplinary approach between the colleagues to create a platform for an open discussion from different perspectives.

The program is focused to surgical indications and selection of appropriate techniques for breast surgery:

- **Reconstructive breast surgery**
- **Aesthetic breast surgery**
- **Breast revision surgery**
- **Breast oncology & radiation therapy**
- **Trends in lipofilling**
- **Sensation in reconstructive surgery**

Without the time and support from the outstanding faculty and the audience, we would not have been able to accomplish this fantastic program.

I am looking forward to welcome you in Düsseldorf.

Kind Regards
Prof. Dr. med. Christoph Andree

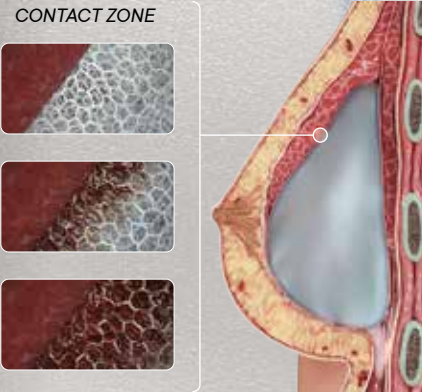

POLYTECH

Microthane®

A SAFE & STABLE SOLUTION

Bio-favouring implant surface

Simulation of progressive tissue ingrowth into the Microthane® surface.

Long-term Stability

High level of Predictability

Very low risk of Capsular Contracture

Special capsular morphology for formation of the capsule

Low Capsular Contracture rate even with radiation therapy

Greater tissue adherence to reduce implant rotation and displacement

PROGRAM FRIDAY, 21 APRIL

8.15 – 8.30 **INTRODUCTION**
Christoph Andree, Düsseldorf
Dr. Stephan Keller, Mayor of the City of Düsseldorf (requested)

8.30 - 15.00 **LIVE SURGERY DAY 1**

Moderation: Christoph Andree |

7 Live surgeries from 3 operation rooms

THEATER 1

Breast reduction - DUS technique

Mazen Hagouan, Alexander Bach

Primary breast augmentation

Charles Randquist, Marie Jäger

THEATER 2

Primary breast augmentation

Paolo Montemurro

POLYTECH

Breast reconstruction with Flora expander

Yves Harder, Björn Lisboa

Hybrid breast augmentation

Benjamin Sarfati

POLYTECH

THEATER 3

Mastopexy II - with GalaFlex scaffold & Lipografting

Stefano Pompei, Sonia Fertsch

POLYTECH

Breast augmentation with B-lite

Matthias Reichenberger

POLYTECH

12.00 - 13.00 **LUNCH BREAK IN EXHIBITION AREA**

Live surgeries are supported by:

POLYTECH

erbe

medassure
beauty

BREAST
BODY

PROGRAM FRIDAY, 21 APRIL

15.00 - 16.00 **COFFEE BREAK IN EXHIBITION AREA**

15.30 - 16.00 **WORK SHOP DURING COFFEE BREAK** **THE USE OF SCAFFOLD IN MASTOPEXY**

Chair: Christoph Andree | Roy de Vita

My first experience with GalaFlex
Tips & Tricks in the use of Scaffold

Irina Herren

Stefano Pompei

DISCUSSION

16.00 - 17.00 **BREAST SURGERY & RADIATION THERAPY**

Chair: Günter Germann | Christoph Heitmann

Shifting paradigms in radiotherapy - are indications changing?

New perspectives from the Point of view of ...

... the gynaecologist

Jörg Heil

... the radiologist

Christiane Matuschek

... the plastic surgeon

Moustapha Hamdi

Timing of surgical procedure due to radiotherapy ...

... in implant reconstruction

Peter Cordeiro, Roy de Vita

... in autologous reconstruction

Moustapha Hamdi, Jaime Masia

DISCUSSION

17.00 - 17.15 **KEY NOTE LECTURE**

Challenges in breast cancer - balancing active treatment and palliative care

Ulrich Kneser

PROGRAM FRIDAY, 21 APRIL

17.15 - 18.35

AESTHETIC BREAST SURGERY

Chair: Yoav Barnea | Christoph Andree

Can 3D Imaging help us to find the right implants?

How reliable is the prediction?

Dennis Hammond, Paolo Montemurro

Augmentation - „Patient's choice in size of implant“

Pro & contra discussion

Should the patient have a choice in deciding the size

Radu Ionescu

DISCUSSION

Managing of secondary breast augmentation and revisions

- Capsular contraction *Stefano Pompei*
- Double bubble *Sonia Fertsch*
- Animated breast *Jin Sup Eom*
- Predictable outcome *Charles Randquist*
- Patient management *Yves Harder*

18.35 – 18.50

KEY NOTE LECTURE

International breast implant check clinic with ultrasound

Marie Jäger

19.00 GET TOGETHER IN EXHIBITION AREA

PROGRAM SATURDAY, 22 APRIL

8.30 - 9.30

BREAST RECONSTRUCTION

Chair: Burcu Celet Ozden | Jaroslav Krupa

Breast conserving therapy and NSM/SSM

- Evolution of surgical treatment in breast cancer *Jens Huober*
- Indication for BCT *Jörg Heil*
- Indication for NSM/SSM *Omar Youssef*
- Indication for skin reducing mastectomy *Roy de Vita*
- Complication management *Stephen McCulley*

DISCUSSION

9.30 - 10.00

LIPOFILLING IN BREAST SURGERY

Chair: HP van Not | Stefano Pompei

Trends in lipofilling

- ... in augmentation *Yoav Barnea*
- ... in reconstruction *Alexander Bach*
- ... after breast conserving therapy *Jaroslav Krupa*
- ... on oncological safety *Raimund Horch*

10.00 - 10.25

TUBEROUS BREAST

Chair: HP van Not | Stefano Pompei

The anatomy of the tuberous breast

Volker Schmidt

Surgical options

Alexander Bach

Where to place the incision?

Stephen McCulley

One or two stages?

Yves Harder

10.25 – 11.10

COFFEE BREAK IN EXHIBITION AREA

11.10 - 11.30

KEY NOTE LECTURE

Rippling after revision surgery - how to manage?

Charles Randquist

11.30 - 12.15

BREAST AUGMENTATION

Chair: Günter Germann | Stefan Winsauer

Epipectoral vs. subpectoral vs. Submuscular: does it matter?

- A review of the literature *Günter Germann*
- ... epipectoral *Dennis Hammond*
- ... subpectoral *Radu Ionescu*
- ... submuscular *Hans Hendricks*

DISCUSSION

Moderation: Günter Germann

JOY

by Motiva®

Is the new definition
of safety and softness

Have you experienced this elevated
breast augmentation journey yet?

PROGRAM SATURDAY, 22 APRIL

12.15 - 13.00

BREAST SURGERY I

Chair: Marcus Lehnhardt | Jin Sup Eom

The infected implant and how to ...

- ... solve
- ... manage implant loss
- ... talk to the patient
- ... avoid a trial

*Günter Germann
Dennis Hammond
Bianca Baican
Yoav Barnea*

DISCUSSION

13.00 – 13.50

LUNCH BREAK IN EXHIBITION AREA

13.20 - 13.50

LUNCH PANLE - POLYTECH

Implant selection for long-term aesthetic results

Matthias Reichenberger | Paolo Montemurro

13.50 – 14.05

KEY NOTE LECTURE

Chair: Jürgen Terhaag | Abdallah Abdallah

Management of controversies in locoregional recurrence -
surgical and systemic

Jörg Heil

14.05 - 14.35

BREAST CONSERVING THERAPY

Chair: Jürgen Terhaag | Abdallah Abdallah

- Shared decision making
- Multicentric
- Anatomic or septal based
- Lateral thoracic perforator flap

*Jaroslav Krupa
Burcu Celet Ozden
Marc Thill
Stephen McCulley*

14.35 - 15.10

BREAST SURGERY II

Chair: Dennis Hammond | Paolo Montemurro

My key points in Mastopexy ...

- ... auto-augmentation
- ... after weight loss
- ... with intercostal artery perforator flap
- ... with support of Scaffold
- ... with the „pillar“ concept

*Andreas Wolter
Jutta Liebau
Stephen McCulley
Stefano Pompei
Charles Randquist*

CONGRESS PARTY FRIDAY, 21 APRIL - 8.30 P.M.

CONGRESS PARTY @ THE VIEW SKYLounge & BAR

Friday, April 21, 2023 | 8:30 pm

The skylounge and bar THE VIEW is located on the 16th floor of the Ininside Hotel. Once you reach the top, the whole city lies at your feet. The bar is illuminated in violet light and creates the perfect Friday night feeling. The lights of Düsseldorf's Medienhafen glitter and our guests are in a good mood after a short time with our internationally renowned DJ Tom Novy. The perfect location for our legendary congress party for IBSD 2023!

Our Party-DJ Tom Novy, a guarantee for wild parties, was the first German DJ to mix an annual compilation for the London Ministry of Sound in 2000. He produced remixes for the Backstreet Boys, Madonna, Jimmy Somerville, Justin Timberlake and SNAP!. His tracks I House You, Superstar and Your Body were in the TOP 10 of the international dance charts for weeks.

Entrance fee is 100,00 Euro and includes party buffet and free drinks (wine, beer, soft drinks) from 8.30 pm to 1.00 am. The Skylounge is rented exclusively for us until 11pm.

Tickets can be purchased online or on site at the congress registration desk!

Please note – admission by ticket only!

POLYTECH

POLYTECH Health & Aesthetics is proud to be the main sponsor of IBSD. We are the only German manufacturer of silicone breast implants. 2021 marks our 35th anniversary serving the needs of surgeons and patients in over 80 countries around the world.

At POLYTECH we know that our success can only come from your success. We work incredibly hard every day to repay the trust that you and your patients invest in our products.

Our passion to help you enhance your patients' lives, drives our focus on delivering the widest and most innovative range of breast implants on the market today. Every surgeon is unique. Every patient is unique. "One key does not fit every lock".

We hope that you have a wonderful meeting.

POLYTECH – QUALITY YOU CAN FEEL

The QUALITY you Expect
The OPTIONS you Need
The PEACE OF MIND you Demand

GC Aesthetics is an established global medical device company focused on Aesthetic, Revision and Reconstruction procedures. With more than 40 years of experience, surgeons and patients in more than 70 countries with systems in place to ensure the safety of our products through pre-clinical testing, clinical studies and excellent global post-market surveillance use GCA.

GCA is A Confident Choice for Life supported by a 10-year prospective and multi-centric clinical study and an average of 17 years of extended long-term high patient satisfaction data. We provide the most comprehensive implant portfolio in the industry with breast, face, body implants and skin expanders to give surgeons quality surgical options.

Much more than a European manufacturer of high-quality implants, we are proud to support our surgeons and patients by integrating and developing solutions that are designed to support the best outcome for women's breast enhancement journey.

A Confident Choice for Life

"Establishment Labs® Holdings Inc. (NASDAQ: ESTA) is a global medical technology company focused on improving patient safety and aesthetic outcomes, initially in the breast aesthetics and reconstruction market by designing, developing, manufacturing and marketing an innovative portfolio of silicone gel-filled breast implants, branded as Motiva Implants®, the centerpiece of the MotivaImagine® platform.

Motiva Implants® are produced at two FDA compliant state-of-the-art facilities in Costa Rica and currently sold in over 80 countries through exclusive distributors or the Company's direct salesforce. In March 2018, Establishment Labs® received approval for an investigational device exemption (IDE) from the FDA to initiate the Motiva Implants® clinical trial in the United State. After more than a decade on the market, from 2010 to 2023, and 3 million implants sold, Motiva Implants® have consistently reported rates of less than 1 % device-related complications leading to reoperation."

Since 1966 S&T is developing and manufacturing outstanding microsurgical instruments and sutures for microsurgeons around the globe.

To manufacture our products we take worldwide variably surgical techniques as well as all special requirements of the end-user into consideration. Together with them we constantly improve and further develop our range.

Technical capability in combination with innovation, reliability and a sophisticated measurement and monitoring system are the cornerstones of our integrated approach focused on quality. Today, S&T is directly represented in most major microsurgical markets with state-of-the-art product lines ranging from forceps, to needle holders, scissors, vessel clamps, sutures as well as special instrumentation.

S&T Instruments are the preferred choice for microsurgeons in the area of plastic- reconstructive and handsurgery.

BD is one of the largest global medical technology companies in the world and is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. The company supports the heroes on the frontlines of health care by developing innovative technology, services and solutions that help advance both clinical therapy for patients and clinical process for health care providers.

BD and its 77,000 employees have a passion and commitment to help enhance the safety and efficiency of clinicians' care delivery process, enable laboratory scientists to accurately detect disease and advance researchers' capabilities to develop the next generation of diagnostics and therapeutics. BD has a presence in virtually every country and partners with organizations around the world to address some of the most challenging global health issues. By working in close collaboration with customers, BD can help enhance outcomes, lower costs, increase efficiencies, improve safety and expand access to health care.

For more information on BD, please visit bd.com or connect with us on LinkedIn at www.linkedin.com/company/bd1/ and Twitter @BDandCo.

Galatea has joined BD.

ERBE ELEKTROMEDIZIN GMBH - Setting standards since 1851.

As a family-owned and operated business, Erbe develops, manufactures and markets surgical systems for professional use in various medical disciplines all over the world.

Applications in breast surgery using medical technology made by Erbe

For the reconstructive and aesthetic breast surgery, our portfolio offers units, submodules and instruments that have been optimized for a dedicated range of surgical interventions.

The "master module" VIO® 3 offers numerous electrosurgical modes. The preciseSECT mode of the VIO® 3 is perfectly suited for the dissection of fine tissue structures. preciseSECT offers fast and effective coagulation with limited tissue-separating properties, in combination with low smoke development and carbonization.

The IES 3 smoke evacuation system protects the surgical team and the patient against health risks resulting from surgical smoke. The system is quiet and versatile. It is an integral part of the VIO® 3 workstation or can be used as a stand-alone unit.

In combination with electrosurgical pencils with integrated smoke evacuation the IES 3 is the ideal solution for clean air in the operating theatre.

4BEAUTY HOLDING GMBH - DIGITAL INSURANCE AND FINANCING SOLUTIONS FOR DOCTORS & PATIENTS

As an insurtech, **4beauty Holding GmbH** specialises in digital insurance and financing solutions in the healthcare market and has already successfully established its self-developed products in several European countries.

Whether you are a doctor or a patient, your safety is our top priority. To this end, in addition to our **safe4beauty** follow-up cost insurance and **credit4beauty** cosmetic surgery financing, we also offer you numerous fundamental insurances for doctors, practices and clinics such as our **medical4beauty** professional liability insurance. Choose **4beauty** as your experienced partner and stay one step ahead!

True to our company philosophy „He who stops getting better has stopped being good.“ we are constantly improving and updating our **safe4beauty**, **credit4beauty** and **medical4beauty** products for the benefit of our customers.

From our headquarters in Cologne, we serve established specialists, ordinaries and private clinics in the field of cosmetic surgery and their patients in German-speaking countries.

SPONSORS / EXHIBITORS

Human Med is headquartered in Schwerin (Mecklenburg-Vorpommern, Germany) is the world's leading manufacturer of medical devices for water-jet assisted liposuction (WAL) that has become a benchmark in the field of natural, extremely gentle body contouring.

The company has played a pioneering role in the field of aesthetics, reconstructive and regenerative medicine for 20 years by offering complete systems and accessories for all indications of autologous fat management with proven outstanding results in autologous fat transfer, in the treatment of soft tissue defects, of lipedema, scars and chronic wounds. Human Med's product portfolio is marketed in many countries by a solid network of regional distributors.

For more information go to www.humanmed.com

Play it safe for you and your patients: A good gut feeling right from the start!

Complications can occur with any surgical procedure - even with your cosmetic surgery. With aesthetic treatments such as breast augmentation, abdominal and facelifts, post-operative bleeding, infections or wound healing problems cannot be ruled out.

Health insurance companies may refuse to pay benefits in whole or in part if there is a charge for subsequent treatment. So protect your patients in good time with the follow-up cost insurance from medassure beauty.

Benefits for you and your patients:

- + No financial worries in case of necessary revision treatment.
- + Up to 5 years of coverage including implant protection
- + Internal benefit processing directly at medassure beauty
- + Simple and fast claims settlement, no GOÄ necessary

For questions and further information, we would be pleased if you would visit us at our booth.

SPONSORS / EXHIBITORS

Medtronic

Further.Together

As a global leader in medical technology, services and solutions, Medtronic improves the health and lives of millions of people each year. We believe our deep clinical, therapeutic and economic expertise can help address the complex challenges — such as rising costs, aging populations and the burden of chronic disease — faced by families and healthcare systems today. But no one can do it alone. That's why we're committed to partnering in new ways and developing powerful solutions that deliver better patient outcomes.

Founded in 1949 as a medical repair company, we're now among the world's largest medical technology, services and solutions companies, employing more than 85,000 people worldwide, serving physicians, hospitals and patients in more than 155 countries. Join us in our commitment to take healthcare Further, Together.

Learn more at Medtronic.com.

PonsaMed is your specialist for liposuction and lipotransfer devices; offering a wealth of products starting with tiny volumes (Nanofat and Microfat) up to a fully equipped liposuction tower.

Lipotransfer is one of the emerging technologies for natural corrections in the last decades. In reconstructive surgery, it is well established for fine tuning after flap surgery, filler of contour defects, cover for implant borders and it has even been used as stand-alone breast reconstruction method.

PonsaMed offers Aquavage lipocollectors for medium and large volumes. Specially designed LipoTx lipoharvester cannulas aspirate the fat tissue, either by sheer suction or by the Swiss made LipoSurg. The LipoSurg combi-system with its integrated tumescent infiltration pump and motor driven cannula handpiece facilitates even extended liposuctions with reduced effort.

Then again, small volume, syringe facilitated lipotransfer is a very versatile tool. The luer lock cannula range comprises different harvesters in sharp and atraumatic designs; reinjection cannulas from 20 Gauge/0,8 mm up to 12 Gauge/2,7 mm and the respective tumescent infiltration cannulas. Small and large V-dissectors complement the range.

Ground breaking work has established NanoFat as a means for regeneration and rejuvenation with the smallest cells within the fat tissue, the SVF (stromal vascular fraction). The new Lipocube Nano with its integrated, triple staged blade concept delivers fractionated fat with purely mechanical methods. At the same time the cellular yield is almost twice compared to established methods.

With patient safety in mind, the focus is on single use products only. For more details you will find us at www.ponsamed.com.

pfm medical is an internationally operating, medium-sized family company based in Germany, offering solutions in the field of healthcare.

For more than 50 years we have successfully, developed, manufactured, and distributed quality products, while simultaneously offering reliable service.

From our headquarters in Cologne, we direct the activities of our locations both within Germany and abroad. Our thoughts and actions are focused on therapeutic success to improve the patient's quality of life, as well as offering the best possible working conditions for users in hospitals, practices, care facilities and laboratories.

Our products, services, and treatment portfolio cover our medical focus fields of infusions, surgery, histotechnology and cardiovascular technologies. We consistently develop our solutions in collaboration with leading medical practitioners and partners.

In this way we can offer flexible and individual solutions for the relevant context. For more information please visit: www.pfmmedical.com

- NEUROLAC®, NEUROCAP®, VIVOSORB® - flexibility in PNR – Polyganics (Netherlands)

The leading expert in Hyaluronic Acid Dermal Fillers and Dermocosmetics. Established in Geneva, Switzerland in 2003 and founded by Madame Valérie Taupin, TEOXANE Laboratories has been built with the vision of combining innovation, quality and consumer safety to develop high performance, avant-garde Hyaluronic Acid dermal fillers and dermocosmetic products based on advanced scientific research. This vision underlines our three core values: Innovation, independence and culture of excellence. For 20 years TEOXANE has driven efficacy, safety and comfort.

Presenting a true skincare and aesthetic revolution, our teams of expert scientists have worked relentlessly on optimizing hyaluronic acid cross-linking. The result is our unique RHA® resilient hyaluronic acid® technology. With properties that surpass those recognised in hyaluronic acid, RHA provides optimal hydration to strengthen, protect and plump the skin, correction of fine lines and folds without unnatural imperfections, and produces a dynamic volumizing effect for outstanding natural results. Comparative clinical studies have demonstrated exceptional results in terms of performance, duration and safety, immediately after injection and up to 18 months later. Building on a firm commitment to innovation and patient satisfaction, we have strengthened our presence in more than 80 countries worldwide.

Today TEOXANE is a global market leader in aesthetic medicine and skincare, offering effective solutions to practitioners worldwide, helping women and men who want to look and feel their best at all times and help them to maintain their beauty in the future. www.teoxane.com/de

B-LITE®

LIGHTWEIGHT BREAST IMPLANTS

Significant benefits not
only for large implant sizes:

- **Up to 30% less weight** than traditional implants
- They exert the **same pressure** on the lower pole **as traditional implants** that are **half the size** (A 300ml B-Lite® implant exerts the same pressure as a 145ml traditional implant*¹)
- The implants are designed to provide a **more predictable** long-term natural look and feel
- They **reduce the dynamic forces** on the breast tissues resulting in **less stretching** from dynamic movement
- They provide greater **daily comfort**

* Demonstrated for anatomical high profile identically shaped implants
